He has been interviewed often on NDTV,  
CNBC on real estate related programs and is  
regularly quoted in The Hindu on issues  
related to development and design. He has  
also been a panellist and presented lectures  
in design forums.

**FIRM PROFILE**

SVA has significant experience in large  
master residential and mixed use plans,  
residential towers and group housing,  
luxury housing as well as affordable  
housing, bespoke villas, schools, hospitality,  
and mixed use/ educational and  
commercial projects.

The core team at SVA has garnered  
working and educational experien  
the United Kingdom, United States,  
Middle East and the Far East. This global  
exposure is integrated and reflected in all  
aspects of the projects that we create.

We have designed over 300 acres and  
more than 20 million square feet of BUA.

We are currently building in Ghana as  
well as the Netherlands .

We believe that good design takes time  
and should not be rushed. We believe that  
good design saves money and improves  
the quality of our lives and we also believe  
that good design should not come at great  
expense and expensive materials.

We believe that Architecture that is simple,  
elevates the senses, radiates positive  
influence and respects nature will always  
be successful. Spaces make places  
and people bring these places to life.
